Lisa’s story
Lisa was planning her daughter’s wedding when a stroke disrupted her plans. Thanks to her critical illness coverage, Lisa was able to afford the treatment her medical insurance didn’t cover. So she was able to focus on her goal for recovery: to dance at her daughter’s wedding.

Who’s at risk?
• The odds of developing cancer during a lifetime are one in two for men and one in three for women.¹
• Every 34 seconds someone in America will have a coronary event.²

Key advantage
You can use this coverage more than once. If you receive a full benefit payout for a covered illness, your coverage can be continued for the remaining covered conditions. The diagnosis of a new covered illness must occur at least 90 days after the most recent diagnosis and be medically unrelated. Each condition is payable once per lifetime.
